

The Settlement Project

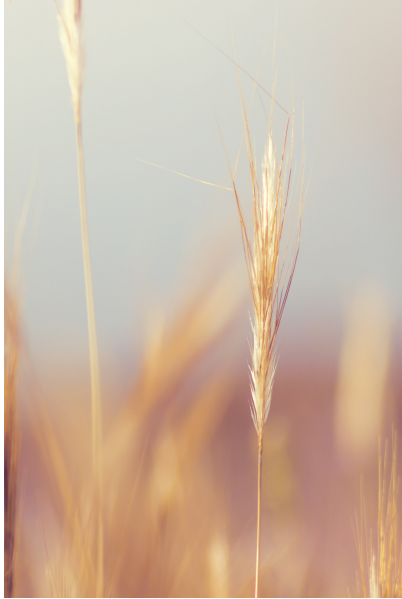

Enduring freedom and peace are possible

RENEWING A HEALTHY AMERICAN CULTURE

based on our God-given human rights
and founding ideals

The Settlement Project strives to create a better life for all people with the thoughtful application of principled, time-honored ideals transcending history's relentless Left-Right conflicts.

We expose the present-day threats to America and democracies throughout the world, which are based on new radical ideologies of division and destruction rooted in Marxism, Fascism, and Wokeism, systems designed to erode the eternal and unchanging values we hold dear.

We embrace the vision and goal of our country's founding that all people have the God-given right to live as equals, freely and in peace.

The Settlement Project truly believes that enduring freedom for people in a peaceful world is an attainable goal

WHO WE ARE

MISSION & PURPOSE

To revive our American culture of Liberty,
Equality, Just Laws, and Loving Harmony.
To secure a bright, caring future where
our families and our inalienable, God-
given rights flourish.

PRINCIPLES

People are not the enemy.
The enemies of our country and its positive
ideals are materialism, and lust for control
and power bolstered by harmful and
divisive
philosophies and ideologies.

STRATEGY & OUTREACH

We offer clear, up-to-date ideological
knowledge and moral clarity combined
with openness and inclusivity. Anyone
who wants to learn, understand, or
help is welcome.

We take our message and methods to
local regions, and strive to understand
and meet the needs unique to each region.
Action on the regional level creates
national impact as regions bond and
interconnect in our shared purpose.

The Settlement Project's long-term work to rebuild culture happens at the regional level through civic education programs and systems to support each other's projects and campaigns. This investment in local leadership and society forms the bedrock of a national-level culture built on personal freedom, and rights and duties learned above all in loving families.

“ OUR COUNTRY IS AT AN ACUTE moment of political inflection, which makes the work of The Settlement Project needed more than ever.

Working to reverse the moral decay, division, and chaos that threaten the soul and future of America is the exact mission and work of The Settlement Project. Our support is key.

THE SETTLEMENT PROJECT IS JUST WHAT

America needs at this dark hour: strong voices, solid values, and a desire to unify rather than ostracize. My husband and I are honored to work with such fine folks, including Dr. Frank Kaufmann and Marquis Van De Mark, who have assembled a wide array of religious and ethnic voices to work together for the betterment of America.

LET'S WORK TOGETHER

ACHIEVING OUR GOALS

We use a multi-pronged approach to share our cause, which includes:

- Local meetings for education, planning, and networking
- Publishing literature, and education and training materials
- Promoting activists and projects on the ground and on social media
- Growing and starting new chapters throughout America.

GET INVOLVED
